

Plenary Session-01

My Lifelong Journey in Assessing Liver Tumor Vascularity with Ultrasound

Jae Young Lee, MD, PhD.

Professor, Department of Radiology, Seoul National University, College of Medicine, Seoul National University Hospital (SNUH)

Abstract

My research on liver tumor vascularity with ultrasound began in 2000 during my fellowship. At that time, GE had just introduced coded harmonic ultrasound, and Acuson's Sequoia 512 featured Cadence Contrast Pulse Sequencing (CPS) technology and amplitude modulation mode. Levovist was introduced around the same time as w
